Registered with

Corporate Affairs Commission

Engineering and construction, done properly.

TEOSHFAGY LIMITED is a Nigerian engineering and construction company, registered with the Corporate Affairs Commission. We carry out general engineering, construction and consultancy work across civil, structural, electrical and mechanical disciplines.

We build long-term relationships with our clients. We price honestly, document our work, and resource and supervise every project properly, from a single building renovation to public infrastructure.

Our vision

To be a trusted name in Nigerian engineering and construction, known for infrastructure and buildings that are safe, durable and delivered as agreed.

Our mission

To deliver engineering, construction and equipment services with qualified people, sound methods and honest pricing, from first survey to final handover.

Five divisions. One accountable company.

01

Infrastructure

- Roads, bridges and culverts
- Dams, canals and irrigation
- Drainage and earthworks

02

Building construction

- Homes, estates and offices
- Factories, warehouses and shops
- Hotels, schools and clinics

03

Engineering and consultancy

- Feasibility studies and design
- Electrical and mechanical installations
- Structural assessment

04

Equipment leasing

- Short and long-term leases
- Equipment scheduled with your works
- Sale of engineering equipment

05

Projects and property

- Project management and supervision
- Repairs, renovation and reconstruction
- Land and property development

Turnkey delivery

Bring the divisions together for design, construction, equipment and handover under one contract.

Four engineering disciplines

Civil

- Roads and pavements
- Drainage and culverts
- Earthworks
- Dams, canals, irrigation

Structural

- Reinforced concrete
- Steel frames and roofs
- Foundations
- Strengthening works

Electrical

- Building installations
- Power distribution
- Lighting
- Testing and maintenance

Mechanical

- Plumbing and sanitary
- Ventilation and A/C
- Plant installation
- Servicing and repair

Five stages, agreed before work begins.

1

Brief and site visit

We record what you need and site constraints: access, ground, utilities, approvals.

2

Design and feasibility

Engineering design and drawings, checked against budget and timeline.

3

Quotation and programme

An itemised quotation and work programme, agreed in writing.

4

Construction and supervision

Qualified personnel, site supervision, safety controls and inspections.

5

Handover and aftercare

Final inspection, documentation and an agreed defects period.

What you can expect from us

Senior attention on every project

The people who price your project stay involved through delivery.

Clear costs and regular reporting

Itemised quotations, a written change process and progress updates.

Quality checked, not assumed

Inspections at defined stages against the drawings and specification.

One team across disciplines

Civil, structural, electrical and mechanical work under one company.

Our values

Quality

Work that meets the drawings, specification and code.

Integrity

Honest pricing and clear contracts.

Safety

Safe sites for people and the public.

Accountability

One company answerable for the job.

Commitment

Long-term relationships beyond handover.

Sectors

Sectors we serve.

Residential

Commercial

Industrial

Public infrastructure

Water and agriculture

Our commitments

On every project

- ✓ Work to the applicable Nigerian codes and the agreed specification
- ✓ Safety controls and quality inspections on every site
- ✓ Itemised quotation and work programme, agreed in writing
- ✓ Documented handover and an agreed defects period
